Bareilly| ashmitinvertis@gmail.com| 7505790529| [LinkedIn](#) | [GitHub](#) | [LeetCode](#)

SUMMARY

Full-Stack Developer skilled in MERN Stack and Next.js, with hands-on experience building real-world, scalable web applications. Actively strengthening problem-solving skills through Data Structures & Algorithms and maintaining a strong professional presence with 16K+ followers on LinkedIn.

EDUCATION

Btech CSE   (2023 - Present)
Invertis University

Senior Secondary   (2022 - 2023)
Mother's Public School| CBSE Board

Matriculation (optional)   (2020 - 2021)
Mother's Public School| CBSE Board

PROJECTS

OpyraInfoTech   **Remote**

Full Stack Developer (Client Project)
- Designed and developed a full-stack digital agency website using Next.js, handling both frontend and backend development..
- Implemented secure payment gateway integration (Razorpay) for service-based transactions.
- Deployed the application on a custom domain, ensuring performance optimization and responsive UI.
- Collaborated remotely with the client to deliver a production-ready solution aligned with business goals.

Occult369   **Remote**

Full Stack Developer (Client Project)
- Built a full-stack astrology and numerology platform using Next.js with complete frontend and backend ownership.
- Integrated Razorpay payment gateway for personalized readings and premium services.
- Developed dynamic features for user interaction, content management, and secure transactions.
- Successfully deployed on a live domain, delivering a scalable and user-friendly production application.

INTERNSHIPS

Web Full Stack Developer Intern   **Remote**
EduSkills | AICTE | National Internship Portal

- Completed a 10-week virtual internship focused on full-stack web development.
- Built and enhanced end-to-end web applications, working on both frontend and backend components.
- Strengthened practical understanding of modern web technologies, APIs, and deployment workflows.
- Gained hands-on experience aligned with industry-level development practices.

AI-ML Virtual Intern   **Remote**
EduSkills | Google for Developers | AICTE

- Successfully completed a 10-week AI-ML virtual internship supported by Google for Developers.
- Gained foundational exposure to Machine Learning concepts, data handling, and model workflows.
- Worked on structured learning modules and practical exercises related to AI/ML applications.
- Developed a strong understanding of how AI interacts with real-world software systems.
